

Hands-On Maintenance and Light Repair **Student Support Documentation**

What is an assignment?

An assignment is an activity your instructor has assigned to you to complete. For *Hands-On Maintenance and Light Repair*, assignments may include Pretests, Lessons, and Posttests.

Your assignments display in the *My Assignments* panel on the left-hand side of the Home page. By default, *My Assignments* will display your To Do list, which includes all of the assignments you have not submitted.

The screenshot shows a user interface for 'My Assignments'. At the top is a blue header with the text 'My Assignments'. Below the header are two tabs: 'TO DO (70)' which is selected and underlined in orange, and 'ALL (72)'. The main content area contains two assignment cards. The first card is titled 'Lesson 1' and includes a checkbox, the text 'Class: Demo Class', 'Date: Sep 27, 2017', and 'Instructor Notes: Complete this lesson by the end of the school day Friday.' The second card is titled 'Lesson 1 Pretest' and includes a checkbox, the text 'Class: Demo Class', 'Date: Sep 27, 2017', and 'Instructor Notes: Please complete this assignment by Friday at noon.'

For each assignment, you will see the following components:

- Title—Title of the assignment.
- Class—The class you belong to that was assigned this activity.
- Date—The date the assignment was created.
- Instructor Notes—Additional information provided by the instructor when they created the assignment. Note: The instructor may choose not to provide any notes.

The screenshot shows a single assignment card for 'Lesson 1'. It features a checkbox, the text 'Class: Demo Class', 'Date: Sep 27, 2017', and 'Instructor Notes: Complete this lesson by the end of the school day Friday.'

Select *All* to view the list of all assignments that are assigned to you.

My Assignments

[TO DO \(70\)](#) [ALL \(72\)](#)

Any assignments you have already submitted will display with a checkmark in the box.

Lesson 26 Pretest

Class: Demo Class
Date: Sep 25, 2017
Instructor Notes:
